

water**is**life

Bosse had a strong commitment to the people, and especially the children, in the poorest parts of Ethiopia.

His 70th birthday campaign, together with Adolf Fredrik Girls' Alumni Chorus ("The Ladies Choir"), collected over \$10,000 for the construction of a pediatric ward at the Tercha Hospital in southern Ethiopia. The clinic is now complete and thousands of children have already received treatment.

But Bosses involvement did not stop at that. Last year, he and his beloved "Ladies Choir" helped raise funds for a water project in northern Ethiopia that will soon be finished.

The need for clean water is huge, especially during the severe drought that has hit Ethiopia recently. Clean drinking water can be a matter of survival for many in these areas and especially for the kids.

Bosse is no longer among us, but we can continue to support the cause he was so passionate about. 100% of all funds donated will go to support a water project in the community of Gonok in northern Ethiopia.

Thank you very much for your support,

Ingrid, Matt, Lisa and Lars with families
