Mayfelhi, Senale
(Tigray, N. Ethiopia) –
Hand Dug Well

Location: lat/long:
13.328800, 39.255760

Water is Life is a 100% non-profit fundraising campaign with the sole objective of funding water wells to directly benefit some of the world's poorest people in rural Ethiopia. We build sustainable wells through our non-profit partner, A Glimmer of Hope, a reputable charitable organization with more than 10 years of experience and 6.700 successful water projects in Ethiopia.

Mayfelhi – hand dug well

The Mayfelhi well represents one of several water projects by A Glimmer of Hope, as part of the “Senale Potable Water Program” in the community of Senale, Tigray.

Once all the projects are completed, over 17,000 community members will have access to clean water.

Program Objective

Improve the well being of the target community in Senale through the provision of clean water as well as hygiene and sanitation training.

The Result:

When a young girl no longer spends half of her day collecting water, she can go to school during that saved time.

Clean water means healthier families and fewer illnesses, which translates to more time to work in the fields or pursue a trade. This translates to greater income and food security.

Training and Maintenance

The community around the well has received training on the importance of hygiene and sanitation, and they have been trained on how to care for the well.

A committee responsible for the well's maintenance has been elected among the community members.

In the last 10 years A Glimmer of Hope has completed more than 6,700 water projects in Ethiopia. The Mayfelhi well in Tigray is yet another step towards making a difference in the quality of life in rural Ethiopia.

Our Donor

The Mayfelhi well was made possible by a generous donation from the Barcelona based innovation consultancy, A Piece of Pie, on behalf of Its Team & Clients.
